Sebastian Yosue Alejo Valdez

Data & Full Stack Developer | Python | SQL | Automation | Cloud
Lima, Perú · Phone: +51 922 934 170 · Email: alejovaldez2004@gmail.com
Github: sebastianalejo.github.io · Linkedin: www.linkedin.com/in/sebastianalejovaldez/

Systems Engineering student with experience in backend development and process automation using Python and SQL. Proven track record delivering solutions in both public and private sectors, including large-scale document generation systems (+150,000 per batch), QR-based academic certification systems (+500 monthly), and optimized e-commerce platforms. Achieved up to 70% reduction in operational time through automation. Experienced in cloud deployment (Azure) and web optimization (Cloudflare). B2 English proficiency with professional experience supporting international customers.

PROFESSIONAL EXPERIENCE

Web / E-commerce Developer (Freelance)
Alto Aroma
Lima, Peru. 2026

- Developed and deployed an e-commerce platform using WordPress + WooCommerce, optimized with Azure and Cloudflare, improving page load times by **40%**
- Managed digital product catalog and optimized sales funnel performance

Software Developer
Bryan Impresores & Servicios Generales E.I.R.L.
Lima, Peru. January – March 2026

- Automated internal processes using Python, reducing operational time by approximately **50–70%**
- Developed a large-scale document generation system processing **+150,000** files per batch
- Implemented the system across multiple municipalities in Lima, improving administrative efficiency at scale

Bilingual Customer Support (English – Spanish)
DoorDash (Teleperformance Peru)
Remote. October 2025 – January 2026

- Handled customer and driver inquiries and issue resolution in English and Spanish
- Managed cases related to orders, payments, and accounts using internal tools, consistently meeting KPIs and maintaining high customer satisfaction

Educational Technology Administrator & Digital Support
Consultoría en Laboratorio S.A.C. (ICL)
Lima, Peru. June 2025 – September 2025
